

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Total.....	1,473

Persons vaccinated.....	0
Crew on steamers inspected.....	1,141
Crew on arriving sailing vessels inspected.....	35
Vessels in quarantine.....	0

*Report from Iloilo—Cholera declining.*

Assistant Surgeon McCoy reports, through the chief quarantine officer, January 1, as follows:

During the month of December, 1903, 15 cases of cholera with 12 deaths were reported at this port; no cases are reported at any other port on Panay.

Reports indicate that cholera has disappeared from Occidental Negros, except in the case of a few pueblos in the northern part of the province; indeed, so far as can be learned here there is no place in the southern islands seriously infected at present.

## PORTO RICO.

*Report from San Juan—Immigration.*

Chief Quarantine Officer King reports, January 25, as follows:

*Report of alien passengers arriving at San Juan during the week ended January 23, 1904.*

Date of arrival.	Vessel.	Where from.	Number of immigrants.
Jan. 18	St. Simon.....	Gonaives, St. Marc, Petit Goave, Port au Prince, Port de Paix, Cape Haitien, Puerto Plata.	10
20	Julia.....	Habana, Nuevitas, Puerto Padre, Gibara, Baracoa, Santiago, Santo Domingo, and Macoris.	22
	Total.....		32
